RHTC Posting Activity Report of Post Graduate Residents

The activities conducted by Post Graduate (PG) residents at the Rural Health Training Centre (RHTC):

1) Organizing health camp for blood grouping and haemoglobin estimation of school children at Nayawathoda:

PG residents were actively involved in promoting child health in the Nayawathoda community. They organized health camps to determine the blood groups and estimate the hemoglobin levels of school children. This initiative helped in identifying potential health issues early on and ensured that students receive the necessary care and attention to maintain their well-being.

2) Diabetes screening and checkup camp for adults above 30 years at RHTC Ner Pinglai:

At RHTC Ner Pinglai, PG residents took the lead in conducting diabetes screening and checkup camps. These camps were specifically targeted at adults aged 30 and above, as this age group is at a higher risk of developing diabetes. Regular checkups and early detection are crucial in managing and preventing this chronic condition.

3) Adolescent Health camp at Janta Vidyalay Ner Pinglai:

Promoting adolescent health is essential, and PG residents actively contributed by organizing health camps at Janta Vidyalay in Ner Pinglai. These camps addressed the unique health needs of adolescents, including reproductive health, mental health, and nutrition. They provided valuable guidance and support to this age group.

4) Diabetes screening and checkup camp at Rajurwadi Subcentre:

PG residents extended their services to Rajurwadi Subcentre, where they conducted diabetes screening and checkup camps. This outreach effort ensured that even residents in remote areas have access to essential healthcare services, especially related to diabetes, a prevalent health concern.

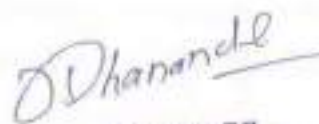

5) Management of general OPD along with assistance in Special OPD like skin, ANC, and pediatrics OPD:

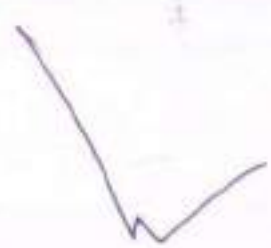

At the RHTC, PG residents played a pivotal role in managing the general outpatient department (OPD). They provided primary healthcare services, diagnosed common illnesses, and offered treatment. Additionally, they assisted in specialized OPDs, such as skin, antenatal care (ANC), and pediatrics. This comprehensive approach ensured that the healthcare needs of the community are met effectively.

6) Visits to P.H.C, Subcentre, Anganwadi for various programmes and health awareness days were conducted by the residents.

These activities reflect the dedication of PG residents in providing healthcare services to the community, addressing various health issues, and promoting overall well-being in the rural areas served by the RHTC.

Activity Report

Project/Activity/Event name: Hemoglobin & Blood group detection camp for adolescent girls of a high school in Belpura on occasion of Dr. Panjabrao Deshmukh Jayanti.

Venue/Place : Shri Shivaji Maratha high school, Station branch, Belpura, Amravati

Department/Section : Department of Community Medicine through UHTC, Belpura

Date of event/activity/Project : 23/12/2022

Time : 10 am onwards

Objectives: Detection of Hemoglobin levels thereby diagnosing grades of Anemia among adolescent girls for early treatment and detecting blood groups as a measure for easy blood transfusions when needed or blood donation activities.

Importance/Relevance/Introduction: Iron deficiency anemia is common in poor adolescent girls of urban slums and many of them don't know their blood groups.

Brief description of activity carried out: Hemoglobin estimation & Blood grouping & Rh typing of 48 adolescent girls of Shri Shivaji high school, Belpura were done at the site & report was given to them. Almost all girls were anemic and 5 girls were found to be Rh negative. They were asked to attend UHTC OPD for treatment & counseling.

Recommendations: 1) Regular camps should be arranged in girl schools for early detection of anemia so that treatment can be given to prevent severe anemia & knowing blood group will be for a lifetime and Rh negative girls can be counseled about its implications in pregnancy.

Enclosures: 1) Notice of celebration
2) List of Beneficiaries of camp
3) Photographs
