This is to certify that **Mr. Biyani Shubham Nandkishor** student of Dr. P. D. M. Medical College, Amravati has passed his First MBBS, Second MBBS and Third (Part-1 and 2) MBBS in 1st attempt. At present he is doing one-year compulsory rotatory internship, which has started from 29.02.2016 and he will complete his internship on 28th February 2017 after which he will be awarded MBBS degree of MUHS, Nashik.

He has completed clinical rotations in Internal Medicine, General Surgery and allied subjects of Pediatrics, and Obstetrics & Gynecology. The medium of instruction in our Institute is **English** and he demonstrates proficiency in it.

His genuine professionalism and dedication towards patient care is well known among faculty and students. Shubham has earned laurels for himself and the Institution in various intercollegiate academic and cultural competitions held at state & National level. I vividly recall him participating in medical quizzes like Physiology quiz (2012), Pathology quiz (2013), Otorhinolaryngology quiz (2014), Medicine quiz (2014), Surgery quiz (2015) and OBGY quiz (2015) which shows his eagerness and sensitivity in Medical field. Also he had represented college in Indian Medical Association, Nagpur – festival of India – Inter college dance Competition (2014). Every year he played a valuable role in organizing and participating in college annual festivals. He has always been one of the fine sportsmen, we have in our Institute.

TO WHOM IT MAY CONCERN

I am happy to write in support of Mr. Shubham Biyani, who has been a student at Dr. P.D.M.M.C. for the last four and half years. I know him as an articulated, clear thinking, motivated and intellectually curious person. He is one among the few students who manages to strike the right balance between academic and co-curricular activities. As the dean of this institute, I know him as a creative person with his strong fundamentals which he has shown on several occasions.

Shubham has consistently performed well academically having received distinctions in Biochemistry, Pathology, Pharmacology, Microbiology, Otorhinolaryngology, Preventive & Social Medicine (Community Medicine) and Obstetrics & Gynecology. He has always been among the top 3 students of his class of 100.

Shubham's professionalism and dedication towards patient care are often noticed by the faculty and the students. Shubham has earned laurels for himself and the institution in various intercollegiate academic and cultural competitions held at state and national level. Having consistently participated in medical quizzes within and outside the college Shubham has displayed his deep rooted love for imbibing medical knowledge. Additionally, by participating in events such as drama and sports, he displays that he is more than just books.

Shubham is a lively personality with novel solutions. He led a team of 12 members to present a symposium on the topic of Infertility at National Level, representing the college at All India Undergraduate Medical Conference – CONFLUENCE in 2015. Being an active member of the student council over the last year, Shubham has shouldered additional responsibilities and made invaluable contributions to the development of the hospital. He has shown a keen interest in community service and voluntary work and has helped the department of Community Medicine in conducting camps for diabetes detection in rural areas.

In summary, his diligence, intellect and commitments are noteworthy. I recommend Shubham in the highest term to join your institute. I am sure he will not only be an asset to your department and institution but also make an inspiring difference to the lives of patients he would care for. I have no doubt that he will take full advantage of this opportunity to make himself a fine doctor.

To whom it may concern,

I am writing this letter of recommendation for Dr. Nikita Chaudhari with great delight and enthusiasm in support of her application to the MPH program at your distinguished university. I have personally known Nikita when she attended Preventive and Social Medicine classes in her 6th semester of the MBBS course. Having taught for 4+ years and observed numerous students, Nikita stands out because of her hard work, inquisitive nature and dedication. I was thrilled to hear that she is pursuing MPH. I am confident that she will be a resourceful candidate for the MPH program.

Consistently, Dr. Nikita performed well in her courses. She also set high professional standards while doing her internship and was a leader in group projects. Most notable was her performance in creating awareness in women's health and nutrition on Women's Day Occasion. She worked tirelessly and conducted clinical camps in rural tribal areas of Maharashtra, India. Moreover, she has attended rural clinical postings for months at a stretch and helped the patients of remote areas to access basic medical facilities. Attending a daily OPD of 30-50 patients in the rural health center, where most of them lack basic health education, highlighted Nikita's clinical skills, composure and ability to communicate effectively with patients.

In some rural areas where women hesitate to discuss their problems with a doctor, they lack understanding of menstrual hygiene and sanitation and family planning. These women need guidance and medical help at the doorstep. Our hospital aims to provide the best medical help in these areas. Dr. Nikita has worked in the Public Health Centre (PHC) to provide timely help and treat these women under the guidance of senior doctors. Her initiative to understand the problems and her proposed solutions allowed us to reach more women with fewer resources.

Dr. Nikita is conscientious, respectful, and demonstrates the traits of an emerging leader. Outside the classroom, I know that Dr. Nikita was the Prefect of the girl's hostel and helped the college committee to best serve the girls in the hostel. With her caring nature and good judgment, she helped the warden to solve various problems in the girl's hostel. Dr. Nikita is a good human and I wish to see the impact she makes through this MPH degree.
